

ISP - Insulating Sleeves- For 3"(7.5cm) to 14"(35.5cm) dia's

Black Poly Jacket Insulating Sleeves

| Model No. | Description                            |
|-----------|--|
| ISP045    | for 3" & 4" dia. duct, 5 ft. length    |
| ISP0410   | for 3" & 4" dia. duct, 10 ft. length   |
| ISP055    | for 4" & 5" dia. duct, 5 ft. length    |
| ISP0510   | for 4" & 5" dia. duct, 10 ft. length   |
| ISP065    | for 5" & 6" dia. duct, 5 ft. length    |
| ISP0610   | for 5" & 6" dia. duct, 10 ft. length   |
| ISP075    | for 6" & 7" dia. duct, 5 ft. length    |
| ISP0710   | for 6" & 7" dia. duct, 10 ft. length   |
| ISP085    | for 7" & 8" dia. duct, 5 ft. length    |
| ISP0810   | for 7" & 8" dia. duct, 10 ft. length   |
| ISP105    | for 9" & 10" dia. duct, 5 ft. length   |
| ISP1010   | for 9" & 10" dia. duct, 10 ft. length  |
| ISP125    | for 11" & 12" dia. duct, 5 ft. length  |
| ISP1210   | for 11" & 12" dia. duct, 10 ft. length |
| ISP145    | for 13" & 14" dia. duct, 5 ft. length  |
| ISP1410   | for 13" & 14" dia. duct, 10 ft. length |

### Performance Data

for insulating sleeves

#### Material

- insulated poly jacket sleeve lined by R4.2, R6 and R8 insulation
- in 10 ft(3m) & 5ft(1.5m) lengths

### General Information

- ideal for adding insulation to new or existing hard pipe, semi-rigid, or flex duct
- increases the efficiency of warm or cool air traveling through the duct
- helps un-insulated duct from condensating or sweating in certain applications

### Class 1 Surface Burning Characteristics

Max Flame spread 25

Max Smoke Developed 50

Thermal Performance
